# elevated food displays

Mangia Catering's buffets, stations and desserts come ***served on a standard banquet table with linen***. A perfect option for those simple gatherings, but ***we like to dream big for those fancier engagements***. We've put together a few options to elevate your displays -- think of this as inspiration to an ***endless possibility of food display design***.

# Let's Break It Down

FIRST YOU CHOOSE:

## How you would like your *food served*?

### 01 SEATED/PLATED/SERVED

Seated/plated/served menus are the most formal of the service options. Typically we like to have guests planned on a seating chart, and we keep track of your guests entree selection. Once your guests are seated, we bring the plated food to them.

### 02 BUFFET

A buffet features long tables with all of the offerings presented on the table. Mangia Catering provides simple buffet decor and linens and will have buffet attendants serve your guests to help keep things moving efficiently.

THEN YOU CHOOSE:

## *Custom* or *coordinating* signage

### 01 CUSTOM SIGNAGE

Opting for the custom option provides the opportunity to incorporate the desired event vision and enhance the existing style direction. From colors, textures and design elements to the sign frame and stand - each piece is customizable to best fit the design vision.

### 02 COORDINATING SIGNAGE

Align your selected ***buffet design collection*** with the corresponding pre-designed signage. For instance, if you opted for the gold design collection, choose the pre-designed gold buffet signage to ensure a cohesive event space.
